Vision

All Malaysians to have access to parks and natural areas in pursuit of quality living environment and lifestyle.

Mission

To support the sustainability of parks and recreation by promoting holistic planning, design, conservation and management.

Objectives

- Encourage sustainable planning and management of parks, amenity and recreation areas in accordance to national aspirations and policies.
- Advocate collaborations, partnerships, sharing of knowledge and best practices between different fields that are relevant to park, amenity and recreation management.
- Promote parks, amenity and recreation program as a sector contributing to the economic, social well-being, public health and environmental quality of the nation.
- Promote and encourage the development of inclusive parks to provide opportunity and access for all walks of life.
- Enhance the capacity and professionalism in park management among members.

MyParks Award

In line with MyParks' mission to promote sustainably managed parks, in 2022, the first MyParks Award is recognised.

MyParks Awards include categories of Forest Park, Urban Park and Local. MyParks Award focuses on the forest recreation areas with the partnership with the Department of Forestry Malaysia (FDPM). Sustainability of such areas should be prioritised to benefit the public as well as to keep nature intact.

MyParks is calling for any interested parties to join the nomination of the next MyParks Award scheduled to be conducted in 2026.

To submit your nomination, please visit:
